

Reduce booster failure with the

TMSRL 1000 Rotary Lobe Booster

OEM: TMS-RL 1000 | CFM 765 | HP 5

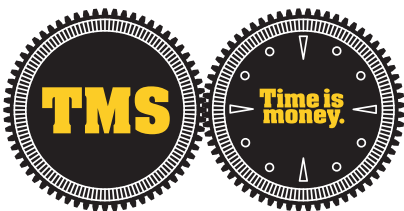

Innovative state-of-the-art quick change coupling, which means no need to remove the motor to change the coupler element.

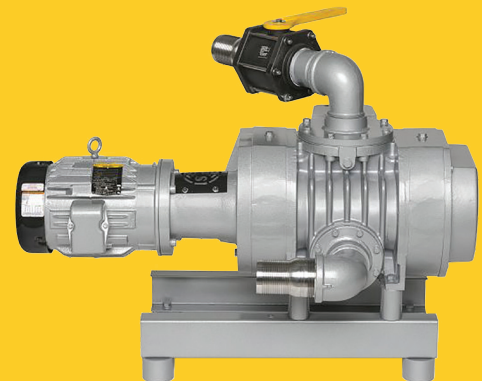

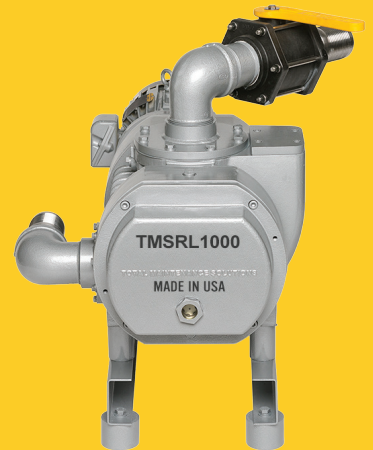

No more lubricating shaft-seal with oil cup required.

- ▶ Substantially longer life between rebuilds USA Steel and Aluminum
- ▶ More durable material than used by competitors – USA vs Import
- ▶ No contamination through oil cup greatly reduces failures
- ▶ TMS can retrofit your current Busch booster with our new motor mount, including our quick change coupler and new state-of-the-art seal that no longer requires lubrication
- ▶ Trade in your old pump for credit towards a new TMS 'Made in the USA' pump
